

Creating a New Quiz

Step 1: Find "Find Quizzes" on your Family Dashboard

Step 2: Click "Create a Quiz"

Step 3: Create a quiz title and search for the corresponding eBook

The screenshot shows the quiz creation form. The 'Quiz Title' and 'Quiz Book' input fields are highlighted with a red box. The 'Quiz Access' section has three radio buttons: 'Private' (selected), 'School', and 'Public'. Below the form are two buttons: 'Select Questions From Database' and 'Create a New Question'.

Step 4: Create a quiz question or add a question from our question bank

The screenshot shows a form for creating a quiz. It includes a 'Quiz Title' field with the placeholder 'ADD TITLE HERE', a 'Quiz Book' field with a search icon and the placeholder 'Search for book title...', and a 'Quiz Access' section with three radio button options: 'Private', 'School', and 'Public'. At the bottom, there are two buttons: 'Select Questions From Database' and 'Create a New Question'. A red rectangle highlights the bottom section containing these two buttons.

Step 4b: If creating a new question, choose question type and add question and answer options

The screenshot shows a dialog box titled 'Add New Question'. It features a dropdown menu for 'Question Type (or Annotation)' with 'Multiple Choice' selected. The dropdown menu is open, showing a list of options: 'Multiple Choice', 'Check all that apply', 'True/False', 'Yes/No', 'Fill in the Blank', 'Essay', 'Annotation', and 'Matching Questions'. Below the dropdown, there is a text input field for 'Max Point'. At the bottom right, there are two buttons: 'Close' and 'Save Question'.
